Office Action Summary	Application No. 10/776,861	Applicant(s) CORBETT, BRADFORD G.	
	Examiner Alexander Thomas	Art Unit 1772	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. The drawings were received on 4/4/05. These drawings are approved.

Claim Rejections - 35 USC § 112

Claim 9 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 9 contains the trademark/trade name Enduralast Tire Coating. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe a polymer coating and, accordingly, the identification/description is indefinite.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1772

3. Claims 1 and 5-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Girard 3,605,159. See column 3, lines 28-70. The phrases "of an oil field packer", "of a cementing shoe", etc. are statements of intended use and do not further structurally define the claimed article.

4. Claims 1 and 3-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Forry 6,093,467. See column 6, lines 1-15 and column 11, lines 39-47. The phrases "for a drill bit", "of an oil field packer", etc. are statements of intended use and do not further structurally define the claimed article.

5. Claims 1, 2 and 4-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Shtarkman 5,176,368. See column 4, lines 14-19. The phrases "for a drill bit", "of an oil field packer", etc. are statements of intended use and do not further structurally define the claimed article.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over either Girard or Forry. The references disclose the invention substantially as claimed; see the above rejections. However, they do not disclose the claimed properties of the polymer coating. It would have been obvious to one of ordinary skill in the art to select a

particular polyurethane coating having the claimed properties in order to provide optimum properties for a particular end use of the products.
